Summary

Second-year BCA (Data Science) student seeking a Data Analyst Intern role. Skilled in Python, SQL, Pandas, NumPy, and data visualization. Built Flask-based data quality and analytics projects covering data cleaning, ETL workflows, relational database design, and automated testing.

Education

Techno India Hooghly, West Bengal — Expected 2029
BCA (Bachelor of Computer Applications) in Data Science (4-year program) — CGPA: 7.5/10
Higher Secondary Education (WBCHSE), Bhadrakali High School — Class 12: 55%
West Bengal Board of Secondary Education (WBBSE), Uttarpara Amarendra Vidyapith — Class 10: 50%

Skills

Programming Languages: Python, C++, JavaScript, HTML5, CSS3
Databases: MySQL, Oracle SQL
Libraries: NumPy, Pandas, Matplotlib
Tools & Software: VS Code, Git, GitHub, Microsoft Excel, Power BI (basic)
Core Knowledge: Data Analysis, Data Visualization, Statistics, Front-End Development, Back-End Development (basic)

Projects

Data Quality Checker | Python, Pandas, NumPy, SQLite — github.com/IshanBiswas2006/Data-Quality-Checker

- Developed a Flask-based web application to analyze, validate, and clean CSV datasets.
- Implemented automated detection of missing values, duplicate records, data type inconsistencies, and validation rule violations.
- Built non-destructive data cleaning operations with before-and-after comparisons and audit tracking.
- Integrated data visualization, user authentication, and cleaned CSV export functionality.
- Implemented automated testing using Pytest.

Netflix Data Engine | Python, SQL, MySQL, Pandas — github.com/IshanBiswas2006/netflix-data-engine

- Developed an end-to-end data analytics pipeline to process and analyze 6,234 Netflix movie and TV show records.
- Implemented data cleaning, transformation, and ETL workflows using Python and Pandas.
- Designed a normalized 3NF relational database schema in MySQL with analytical SQL queries.
- Built an interactive Flask-based analytics platform featuring KPIs, exploratory analysis, and eight data visualizations.
- Analyzed content distribution, genres, production countries, maturity ratings, and runtime trends.
- Implemented automated testing using Pytest.

Certifications & Achievements

AWS Cloud Practitioner Essentials, Amazon Web Services — Aug 2026
Technology Job Simulation, Deloitte via Forage — Jul 2026
Team Leader, Internal College Hackathon for Smart India Hackathon (SIH) 2026, Tech Fest — 9 Sep 2026

Languages

English (Conversational), Bengali (Native), Hindi (Conversational)
